

## Notes from Open Space Topic Convenors

### Healin' for the World

Leland Kaiser is a futurist–  
Is a good friend of mine–  
Sometimes I can't comprehend a word he says–  
But he helps me expand my mind,  
And I learn something every time.

And he was singin'–Healin' for the world–  
It takes every boy and girl, now–  
We've been at an impasse and we're gonna break through–  
And healin' is what we gotta do.

Leland and his pals got together–  
To put on a cool convention–  
We came together to create an intention–  
Try to get to the ninth dimension–  
Yes, we're goin' to try to have an ascension.

And he was singin'–Healin' for the world–  
It takes every boy and girl, now–  
We've been at an impasse and we're gonna break through–  
And healin' is what we gotta do.

We are here at this time and place–  
To explore the possibilities–  
It will be hard work but full of love and grace–  
Let's change our realities–

And we'll be singin'–Healin' for the world–  
It takes every boy and girl, now–  
We've been at an impasse and we're gonna break through–  
And healin' is what we gonna do.  
At it starts with me and you...

(Sung to the tune of Three Dog Night's *Joy to the World*)
