

## Notes from Open Space Topic Convenors

What was your topic or practice?

### **What Happens Next? Nourishing This Family.**

What were major discussion points?

1. More connection is needed beyond the conference to maintain the spirit.
2. We only practice healthcare in the context of a broken culture; need to think about culture change.
3. We hear wonderful speakers; we need to leave with tools to use.
4. Regional (and other) groups, which do not have sufficient participation, should not drain the coordinator(s).

What did you learn?

1. I must think small and connect only with those who have the energy to support my group. Can reach out to others when it is energetically reasonable to do so.
2. Focus on the positive. Have someone you can call/e-mail each day with what was positive or went well, and then they pass it on.
3. I need to respect the frame of reference and context of my audience.
4. Overtly or not, we should support each other, by video, audio or internet conferencing.

Whom should we contact for more information?

Name: Jerry Kaiser  
Telephone: 831/338-3165  
Address: 455 Huckleberry Lane  
Boulder Creek, CA 95006  
Email: kaiserallen@earthlink.net
